PROFILE

Product manager and designer with a background in graphic design and content creation. I bring business, marketing, design and product together to build simple, human digital products, currently an AI product.

EXPERIENCE

Treescribe, Product Designer, then Product Manager · remote — Dec 2025 to present

- Scope features with the founder and engineers, from the problem to shippable tasks, and set the measures for each.
- Design the product's interfaces, onboarding, and how its AI agents work with people.
- Built the design system, brand identity and launch pages.
- Run design QA, usability reviews and product analytics, working with AI coding agents.

Kara Digital Marketing, UI/UX Designer — Sep 2024 to Mar 2025

- Led responsive redesigns of client websites, from wireframes to high-fidelity prototypes in Figma.
- Ran workshops to agree problem framing, KPIs and scope; delivered componentised UI and developer specs.

Bazimoon, Content Manager and Graphic Designer — Sep 2023 to Feb 2024

- Planned and produced social content: photography, video, posters and catalogues.

Safir Digital Marketing, Graphic Designer — Mar 2023 to Apr 2023

- Designed campaign visuals and social media content.
